Contents of Volume 48

NO. 1, JANUARY 1990

The Influence of Dietary Fat on Carcinogenesis: Lessons from Experimental Models, by Diane F. Birt 1
Dietary Fat and Tumor Metastasis, by Kent L. Erickson and Neil E. Hubbard 6
Evidence for an Association between Periconceptional Use of Multivitamins and Neural Tube Defects 15
Evidence against an Association between Periconceptional Use of Multivitamins and Neural Tube Defects 17
Zinc and Copper Wastage during Acute Diarrhea 19
Use of Ethyl Esters of Tryptophan to Bypass the Absorption Defect in Hartnup Disease 22
Phosphatidylcholine, Lysophosphatidylcholine, and Lipoprotein Secretion by Choline-Deficient Hepatocytes 24
Letter to the Editor 26
Tenth Edition of the RDA 28
Nutrition Notes 31

NO. 2, FEBRUARY 1990

Opening Remarks, by Håkan Mogren 37
A Selective Overview of the Chemical Senses, by Morley R. Kare and Richard D. Mattes 39
Control of Appetite and Satiety: Insights from Biologic and Behavioral Studies, by Edward M. Stricker and Joseph G. Verbalis 49
Endocrinologic Control of Food Intake, by Kertsin Uvnäs-Moberg 57
Metabolic Regulation of Food Intake, by David A. York 64
Sensory Influences on Food Intake, by David A. Booth 71
Restrained Eating and Human Obesity, by Albert J. Stunkard and Thomas A. Wadden 78
Assessment of the Sensory Properties of Food, by Halliday J.H. MacFie 87
Effect of the Composition of the Diet on Energy Intake, by F. Xavier Pi-Sunyer 94
Acquisition of Stable Food Preferences, by Paul Rozin 106
Discussion 114
Summary, by Philip James, Per Björntorp, Morley Kare, Robert E. Olson, and Irwin H. Rosenberg 132

NO. 3, MARCH 1990

Aging and Disturbances of Thirst and Fluid Balance, by Barbara J. Rolls and Paddy A. Phillips 137
Experimental Sodium Chloride Deficiency in Man, by R.A. McCance 145
Diarrhea Complicating Enteral Feeding after Liver Transplantation 148
What Do We Know about the Mechanism of Weight Loss in AIDS? 153
Buriti: A Rich Natural Source of Provitamin A for the Treatment of Xerophthalmia in Brazil 155
Maternal and Infant Folate Status Relationships 157
Metabolic Effects of Carnitine Supplementation in Subjects with Low Plasma Carnitine Levels 159
Use of Vitamin and Mineral Supplements in the United States 161
Saccharin Consumption Increases Food Consumption in Rats 163
Esterification of All-*Trans*-Retinol and Its Isomerization to 11-*Cis*-Retinol 166
Nutrition Notes 168

NO. 4, APRIL 1990

The Neurologic Syndrome of Vitamin E Deficiency: Laboratory and Electrophysiologic Assessment, by Lyn J. Howard 169
Existence of a Hitherto Unknown Dietary Factor Essential for Reproduction, by Herbert M. Evans and Katharine S. Bishop 178
Development and Current Status of Home-Delivered Meals Programs in the United States: Who Is Served? by Daphne A. Roe 181
Alcoholism and Biosynthesis of Phosphatidylethanol 186
Sip-Feed Supplements for Elderly Orthopedic Patients 187
Identification of Functional Domains on the 1,25-Dihydroxyvitamin-D_3 Receptor 189
Hereditary Orotic Aciduria and Citrullinemia: Bovine Models 193
Eicosanoid Synthesis is Unaffected by Dietary *Trans* Fatty Acids if Sufficient Linoleic Acid Is Fed 195
The Liver Provides Glutamine to Nourish Other Organs 197
Nutrition Notes 199

NO. 5, MAY 1990

Vitamin A and Lung Cancer, by Walter C. Willett 201
Weanling Diarrhea: A Case Report 212
Weanling Diarrhea, by John E. Gordon, Ishwari D. Chitkara, and John B. Wyon 215
Effect of Wheat Fiber and Vitamins C and E Supplements on Rectal Polyps in Patients at High Risk for Colon Cancer 218
Fish Oil and Interleukin-1—Induced Anorexia 221
Mechanisms of Folate Catabolism 223
Insulin Regulation of Lipoprotein Lipase in Adipocytes Is Not Mediated by Gene Expression 225
Letters to the Editor 227
Nutrition Notes 231

NO. 6, JUNE 1990

Effects of Lipids on Cancer Therapy, by C. Patrick Burns and Arthur A. Spector 233
Reports of the Investigations Carried out in the Laboratory of Pathology and Bacte ology, Weltevreden, during the years 1889 and 1895, by C. Eijkman 241
Metabolic Alkalosis in a Patient with Renal Failure: Role of Antacids 247
Role of Glycosylated Vitamin B_6 in Human Nutrition 251
Plasma DOPA Is Unaffected by Diet 253
Zinc and the Regulation of Vitamin B_6 Metabolism 255
Aminocarnitine and Related Compounds as Inhibitors of Carnitine Transferases: Physiologic Implications 258
Vitamin C Regulation of Cartilage Metabolism 260
Nutrition Notes 263

NO. 7, JULY 1990

Vitamin A Prophylaxis Programs in Developing Countries: Past Experiences and Future Prospects, by Barbara A. Underwood 265
The Bellagio Declaration: Prescription for Halving World Hunger 275
Does Dietary Therapy for Hyperlipoproteinemia Type V Predispose to Premature Atherosclerosis?, by Joseph Zimmerman 277
Introduction of Solid Foods and Total Energy Intake in Exclusively Breast-Fed Infants 280
Efficacy of Oat Bran as a Hypocholesterolemic Agent 282
Zinc and Macular Degeneration 285
Nibbling Diet Lowers Serum Cholesterol 288
Vitamin C Can Promote Selenium Utilization 290
Lead Solder: Source of Body Lead in the Franklin Burials 292

Does Feeding a Protein-Free Diet Accurately Estimate Endogenous Protein and Amino Acid Recovery? ... 293
Fates of Administered Selenium Compounds ... 294
Nutrition Notes ... 296

NO. 8, AUGUST 1990

Is Glutamine a Conditionally Essential Amino Acid?, by Janet M. Lacey and Douglas W. Wilmore ... 297
Uptake and Metabolism of Plasma Glutamine by the Small Intestine, by Herbert G. Windmueller and Albert E. Spaeth ... 310
L-Tryptophan Use and the Eosinophilia-Myalgia Syndrome ... 313
Nutrition Notes ... 317
Assessment of Niacin Status in Humans ... 318
Protein Restriction and the Progress of Renal Insufficiency ... 320
Inadequate Vegan Diets at Weaning ... 323
How Do Foods Affect Folate Bioavailability? ... 326

NO. 9, SEPTEMBER 1990

Nutrition Therapy for Infants with Diarrhea, by Carlos H. Lifschitz and Robert J. Shulman ... 329
Decrease in Net Stool Output in Cholera During Intestinal Perfusion with Glucose-Containing Solutions, by Norbert Hirschhorn and Others ... 339
Dietary, Fiber, Food Intolerance, and Irritable Bowel Syndrome ... 343
Guarding against Cellular Glutathione Deficiency ... 346
Triacylglycerol Metabolism and Hypertriglyceridemia ... 348
Postprandial Lipemia and Reverse Cholesterol Transport ... 350
Biotin in Animal Nutrition ... 352
Expression of a Retinoic Acid–Receptor Gene Is Regulated by Retinoic Acid Itself ... 355
How Glucose Gets into Cells ... 357
Brain Cholecystokinin Receptors and Satiety ... 359

NO. 10, OCTOBER 1990

Dietary Modulation of Cytokine Production and Biologic Functions, by Simin Nikbin Meydani ... 361
Comparisons of Siblings in Boston and Ireland: Physical, Biochemical, and Dietary Findings, by Martha F. Trulson, Robert E. Clancy, W.J.E. Jessop, R.W. Childers, and Frederick J. Stare ... 370
How Accurate Is Self-Reported Dietary Energy Intake?, by Dale A. Schoeller ... 373
Can Whole-Body Proteolysis Be Zero? ... 380
Are Patients with Cirrhosis Choline Deficit? ... 383
Gastric Lipase and Digestion of Human Milk Fat ... 385
Are Copper and Iron Required for Delta-9 Desaturation of Fatty Acids? ... 387
Muscle Provides Glutamine to the Immune System ... 390

NO. 11, NOVEMBER 1990

Malnutrition in Patients with AIDS, by Lonny M. Hecker and Donald P. Kotler ... 393
Interactions of Nutrition and Infection, by Nevin S. Scrimshaw, Carl E. Taylor, and John E. Gordon ... 402
Overzealous Resuscitation of an Extremely Malnourished Patient with Nutritional Cardiomyopathy ... 406
Nutritional Risk Factors for Esophageal Cancer ... 412
Targeting Weight-Reduction Programs ... 414
Nutritional Copper Status and Catecholamine Metabolism ... 416
Oleic Acid Stimulation of Apolipoprotein B Secretion ... 419

5,10-Dideaza-5,6,7,8-Tetrahydrofolic Acid (DDATHF): A Potent Inhibitor of Purine Biosynthesis 421
Nutrition Notes 423

NO. 12, DECEMBER 1990

Dietary Carbohydrate Sources and Copper Bioavailability, by Boyd L. O'Dell 425
Seasonal Fluctuations in Parathyroid Hormone in Relation to Vitamin D Intake of Postmenopausal Women 435
Histamine: A Neurotransmitter That Influences Food Intake? 439
Antagonism to Neuronal Cystine Uptake a Factor in Neuronal Damage by Glutamate 440
Factors Influencing Food Choice in Humans 442
Author Index 445
Subject Index 446
